

The Purpose of Life

“The purpose of life is to learn,” not only for our own little individual lives, but for the whole Universe. This is the real meaning of “Evolution” – an unfolding from The Self within, through many forms to ever nobler forms, to ever greater experiences and knowledge.

The Eternal Verities

We live very close together. So, our prime purpose in this life is to help others.

Humanity, like the globe on which it lives, will be ever tending to reassume its primeval form...Man tends to become a God and then God, like every other atom in the Universe

The Secret Doctrine

What then is the universe for, and for what final purpose is man the immortal thinker here in evolution?

It is all for the experience...of the soul, for the purpose of raising the entire mass of matter up to the stature, nature, and dignity of conscious god-hood.

The aim for present man is his initiation into complete knowledge, and for the other kingdoms below him that they may be raised up gradually from stage to stage to be in time initiated also. This is evolution carried to its highest power.

THE POWER TO KNOW

There are children playing in the street who could solve some of my top problems in physics, because they have modes of sensory perception that I lost long ago.

J. Robert Oppenheimer

The power to know does not come from book-study nor from mere philosophy, but mostly from the actual practice of altruism in deed, word, and thought; for that practice purifies the covers of the soul and permits that light to shine down into the brain-mind.

William Q. Judge

MY HEART is fixed firm and stable
in the belief that ultimately the sunshine

as it were interwoven with man's
existence.

Richard Jefferies
